Summary

I am an enthusiastic Full Stack Developer with a strong foundation in **HTML, CSS, JavaScript, Java, Spring Boot, and MySQL**. I enjoy creating clean and responsive applications and continuously improving my skills. I am eager to apply my knowledge, learn from real-world challenges, and contribute to a collaborative team environment.

Internship Experience

Oasis Infobyte   10-03-2025 to 15-04-2025
Java Developmnet

Experienced in developing and maintaining backend systems using **Java and Spring Boot**, with strong skills in designing and optimizing database schemas using **SQL**. Assisted in integrating front-end components with backend services to ensure smooth and efficient user experiences. Performed thorough unit testing and debugging to maintain high code quality and performance. Collaborated with cross-functional teams to deliver robust, scalable, and reliable solutions.

Education

Kings Engineering College   2022 - 2026
Computer Science and Engineering   Engineering
8.5

M.M Matriculation Higher Secondary School   2021 - 2022
83%   School

Projects

Employee Management System   August 2025

Developed a full-fledged CRUD application for managing employee records, enabling seamless create, read, update, and delete operations. Designed and implemented RESTful APIs to handle backend logic and interact efficiently with the database. Ensured smooth integration between the front-end interface and backend services to deliver a user-friendly experience.
Tech Stack Used

Frontend: HTML, CSS, JavaScript **Backend:** Java, Spring Boot **Database:** MySQL

E-Commerce Website   September 2025
🔗 https://siva-e-commerce.netlify.app/

Developed a basic E-Commerce website that simulates core online shopping features such as product browsing, cart management, and a simplified checkout process. Built an interactive product listing and filtering interface to enhance user experience and ensure smooth navigation throughout the site.
Tech Stack Used

Frontend: HTML, CSS, JavaScript
